CAREER OBJECTIVE:

Passionate and curious intern aiming to contribute to a collaborative tech environment by exploring emerging technologies and solving real-world problems. Eager to learn, grow, and make a meaningful impact through practical, innovative solutions.

SKILLS:

Programming Languages	-	C, Java, Python
Web Technologies	-	HTML, CSS, JavaScript
Database	-	DBMS, MySQL
Concepts	-	DSA, AIML, Cloud Computing
Tools	-	Git, VS Code

INTERNSHIP:

Web Development Intern – News Management System (MSN Clone)
Remote | [June-2025]
- Developed the Admin Dashboard UI with an interactive article table using React.js and Node.js.
- Integrated backend APIs for news management and ensured smooth UI/UX flow.
- Worked on both frontend and backend, using MongoDB, JWT authentication, and image handling.

PROJECTS:

Personal Portfolio Website:
Crafted a responsive personal website to showcase skills, projects, and certifications using HTML, CSS, and JavaScript. Integrated smooth animations for seamless navigation and visual appeal.

Vehicle Rental App (Java-Based) :
Built a user-friendly app using Java for rental vehicles with easy browsing, booking, and admin features.

Image Cartoonization Tool (OpenCV):
Developed an image cartoonization tool using OpenCV by combining classical filters like Bilateral, Gaussian, and Median in a layered sequence. Achieved high-quality, visually appealing cartoon effects through a balanced processing approach.

Applicant Tracking System (ATS) :
Designed a basic ATS to parse, filter, and manage resumes based on job role relevance. Used Python and Flask to build search filters and candidate status tracking.

Red Wrap:
Created a low code website to educate women on menstrual health and safety measures.

STRENGTHS:

Adaptivity | Consistency | Time-Management | Problem-Solving | Teamwork
